

Online Youth Recruitment Planner

1. The Northern Star Council Youth Recruitment Planner website is at <https://www.northernstarbsa.org/planner/>. If you do not already have access to login to this website, simply go to the site and request a login. Once you login, the opening screen has some initial information about how to navigate through the menus, please read this before proceeding. In most areas of this website, you can hover your mouse over any field to see more information. Detailed instructions on how to use this site are at www.northernstarbsa.org/roundup and on the youth recruitment planner. **Each pack/troop/crew/ship should enter their fall youth recruitment date/time/location on this new website.**
2. Why should unit leaders use this youth recruitment planner?
 - a. Provides a central source of information about all units in our council's area
 - b. Potential members and parents can find your unit geographically on the internet
 - c. Potential members and parents can find out when and where your unit meets, and who to contact for questions
 - d. You can post dates, times and locations for recruiting events. This ensures maximum support by the district/council as well as additional publicity on the web
 - e. Your unit can order promotional fliers for recruiting events and other recruiting support materials through the website
3. When the youth recruitment planner is kept up to date by unit leaders, your unit information is kept up to date on the council unit locator public website at www.AdventureIsCalling.org See below for an example of a pack homepage, other unit types have the corresponding program logo on their page and the same information fields.
